

Spa Moves – House to House

Standard spa moves start at \$1500 and can increase in price depending on time, labor, and equipment required. This does not include unwiring or draining the spa, which are subject to additional fees. We are unable to re-wire the spa at the new location. Re-wiring must be done by a licensed electrician. Please reach out to our preferred electrician, [Brian Bradley Electrical](#) at (978) 212-8014. If a crane is needed on either end, the cost can increase an additional \$1500-\$3000 depending on the size of crane required.

To request a quote for a spa move, **please email delivery@nespas.com** and include the following:

- Photos of the delivery and removal path from both locations (typically, 5-6 photos from each address are enough to quote the move). The best way to do this is to start in the driveway or where the truck will park and walk to the spa/future spa location taking pictures along the way.
- The addresses BOTH locations.

Once pictures are received, you will hear from a member of our team within two business days.

Spa Moves – In-Yard

In-yard spa moves start at \$400 and can increase in price depending on time, labor and equipment required. This does not include unwiring or draining the spa, which are subject to additional fees. We are unable to re-wire the spa at the new location. Re-wiring must be done by a licensed electrician. Please reach out to our preferred electrician, [Brian Bradley Electrical](#) at (978) 212-8014. If a crane is needed the cost can increase an additional \$1500-\$3000 depending on the size of crane required.

To request a quote for an in-yard spa move, **please email delivery@nespas.com** and include the following:

- Photos of the spa, the area around it, the path to the new location, and the new area where it will be placed (typically 5-6 photos are enough to quote the move).
- Address where the spa is located.

Once pictures are received, you will hear from a member of our team within two business days.

Spa Removal & Disposal

Standard spa removal starts at \$2000 and can increase in price depending on time, labor, and equipment required. This does not include unwiring or draining the spa, which are subject to additional fees. If a crane is needed, the cost can increase an additional \$1500-\$3000 depending on the size of crane required.

If you are interested in receiving a quote for a removal, **please email delivery@nespas.com** and include the following:

- Photos of the removal path. The best way to do this is to start in the driveway or where the truck will park and walk to the spa location taking pictures along the way (typically, 5-6 photos are enough to quote the removal)
- Address where the spa is located.

Once pictures are received, you will hear from someone within two business days.
